

The AFCC California Mentor List

Mentoring is a reciprocal and collaborative at-will relationship that most often occurs between a senior and junior colleague for the purpose of the mentee's growth, learning, and career development. The goal of this Mentor List is to create a resource for developing mentoring relationships, based upon advice giving and counsel. Effective mentors often act as role models and sounding boards and provide guidance to help reach goals. We believe that a centralized list will be an invaluable resource to the larger community who sometimes have a hard time locating well qualified mentors in their communities.

AFCC-CA has not vetted the qualifications of these mental health professionals. They are Members in good standing of AFCC-CA. They have stated they meet all requirements to serve as mentors. The user of this List should do their own vetting process to verify what is stated herein.
